

Short Oral Presentation Guidelines:

Prioritize effective presentation preparation with three key steps: planning, practicing, and presenting. Address these areas:

Introduction: Cover topic relevance, a brief outline of the presentation's significant points, and a brief greeting/introduction.

Main Body: Provide clear explanations, evidence, transitions, and built-in repetition of ideas.

Conclusion: Signal the conclusion, summarize points, and end appropriately (e.g., "Thank You"). Include variety and transition to Q&A.
